

## **Account Payments**

Payment is due at the time of treatment. **Payment options** include: Visa/MasterCard, Discover, American Express, Cash or Check.

- If you pay for your services by check and that check is returned for non-sufficient funds, we will charge an additional \$25.00 to your account for bank service charges. If this happens, you will be asked to remit the amount of the check plus the service charge in cash within 10 days or your account will be sent to the collection agency.
- There is a \$10.00 fee per statement after 60 days for outstanding balances.
- When a child of a divorced parent is seen, whichever parent accompanies the child will be expected to pay any portion due. We will not bill ex-spouses or parents who live outside the area.

We also offer financing through **Varidi** which allows you to set up automatic monthly payments for your dental care.

- Amounts financed through **Varidi** must be paid within 6 months. Orthodontic treatment financed must be paid within 12 months.

For our patients who aren't covered by a commercial insurance carrier for dental care, we offer individual membership plans. **Cordata Family Dental (CFD) Dental Benefits Memberships** are available for basic dental care with options for additional coverage for dentures, cosmetic procedures, orthodontic treatment, and implants. Please ask us about our membership plans for full details.

## **Unpaid Accounts**

Failure to make payment on unpaid balances within 90 days will begin the collection process on your account.

- If there is no response to collection letters, we will refer your account to a collection agency.
- Once your account has been sent to collection, Cordata Family Dentist will no longer be able to provide dental care for you or your family members.
- Please contact our office if there are any questions or concerns about your bill.

I have read and agree to abide by Cordata Family Dentist's office policies.
